INTRODUCTION

Guru Angad Dev Veterinary and Animal Sciences University started functioning on 21st April, 2006 at Ludhiana to serve the society by promoting the livestock production, health and prevention of the diseases through integrated teaching, research and extension programmes. The University was established with the following goals and objectives :

- To help the society by providing adequate supply of trained veterinary professionals capable of handling livestock health and production aspects including Master's and Doctorate level specialists according to the needs of the State Government and allied agencies.
- To undertake research work in selected areas and wherever applicable following multi-disciplinary approach.
- To provide opportunities for continuing education for professionals in veterinary science.
- To provide consultancy and specialist services to livestock owners, government, semi-government and allied agencies.
- To run "Referral" hospitals for specialized treatment of the referred livestock patients and also to provide clinical training to the students.
- To provide technical expert opinion to different government and other agencies whenever called upon.
- To foster faculty development by providing them with opportunities to participate in appropriate training programmes, conferences, workshops, seminars, symposia etc. and avail other opportunities in exchange programmes.
- To encourage cooperation and collaboration with other departments, colleges, universities and industries both nationally and internationally.

1. College of Veterinary Science

The College of Veterinary Science is a daughter institution of Veterinary School established in 1862 with one year course at Poona which was later upgraded as the first Veterinary College at Lahore in 1882. A part of the Lahore Veterinary College was shifted to Hisar in 1948 after partition. Later, the College of Veterinary Medicine was set up in 1969 as a constituent college of Punjab Agricultural University, Ludhiana. Now this college is a part of Guru Angad Dev Veterinary and Animal Sciences University, Ludhiana. The college was created to be a centre of regional, national and international excellence in teaching, research and learning in animal health and production. It caters to the needs of Punjab by carrying out teaching, research and extension education programmes pertaining to livestock production and health problems and has been instrumental in ushering in an era of 'White Revolution' in the State.

The college has highly competent and experienced faculty members who have made significant contributions in research on animal health and production and won various national and international awards. The Minimum Standards of Veterinary Education Degree Course (B.V.Sc. & A.H.) Regulations, 1993 of Veterinary Council of India (VCI), subsequently revised in 2008, have been implemented in the College. External examination system was introduced from the batch admitted in 1998 and onwards for B.V.Sc. & A.H. 5-year programme. The college is recognized by the Veterinary Council of India and has obtained accreditation from the Indian Council of Agricultural Research (ICAR) in the year 2004. This is the only veterinary college in India having two ICAR Centres of Advanced Studies, viz. in the Departments of Veterinary Surgery & Radiology and in Department of Veterinary Gynaecology and Obstetrics.

This college has 18 departments having excellent laboratory facilities and adequate infrastructure for the undergraduate and postgraduate teaching and research, a well equipped veterinary teaching hospital to cater to the demands of large and small animal health care. In addition, the college also has an elite dairy herd and poultry farm which provide adequate facilities for teaching and research. The college offers the following programmes of study:

- (i) B.V.Sc. & A.H. 5-year programme
- (ii) M.V.Sc.
- (iii) Ph.D.

The programme leading to the award of the B.V.Sc. & A.H. degree is designed to equip graduates with the knowledge and skills essential to a veterinary career. The programme is divided into three phases. The pre-clinical phase, undertaken in years one and two, provides education in basic sciences such as Anatomy, Physiology and Biochemistry, as well as in Animal Husbandry through intramural learning. The para-clinical phase, undertaken in years three and four, includes bridging subjects between the pre-clinical and clinical phases, such as Pathology, Microbiology, Parasitology and Pharmacology. The clinical phase (Surgery, Medicine and Gynaecology) starts in year four and culminates in the fifth and final year. At the end of course work, the students undergo a compulsory rotational internship programme of six calendar months envisaging on the job training in Animal Production, Technology, Diagnostic Laboratories and Clinical practice. The programme is driven by the Minimum Standards of Veterinary Education Degree Course (B.V.Sc. & A.H.) Regulations, 1993 of Veterinary Council of India, subsequently revised in 2008 and aims for research-enriched learning and subject coherence ensuring a balance of knowledge in relation to the common domestic species. The various departments of the college, aided by teaching veterinary hospital ensure both currency and relevance in the basic and applied biological sciences through clinical practice.

Recent graduates have shown considerable

satisfaction with the programme of study, as it prepared them for professional life and have developed confidence in their skills for clinical investigation and lifelong learning, in the context of general practice.

The successful completion of B.V.Sc.& A.H. programme entitles the graduates for registration with the Punjab State Veterinary Council / Veterinary Council of India as registered veterinary practitioners.

2. College of Dairy Science and Technology

Agricultural farming in Punjab is a symbiosis of crop and dairy farming. However, the contribution of dairy sector to the economy of the state is progressively increasing at a faster rate as compared to agriculture sector. There is great scope of marketing milk and milk products in India as well as abroad. Punjab is a milk surplus state and a large volume of total milk produced in the state is sold to neighbouring states and metropolis. Out of 9.63 million tones of milk produced in the state, about 55% is used for domestic consumption, 31% is marketed through the unorganized sector and only 14% by the organized sector of milk plants in the co-operative and private sectors. In most developed countries of the world, the proportion of milk handled by the processing industries is around 90%. The total installed milk handling capacity of 62 milk plants already established in the private and cooperative sectors is about 57 lac litres per day and out of this, only 59% is being utilized. This indicates that major portion of the increased milk production in the state can be diverted to the organised sector thus providing ample opportunities of value addition. There is great future and economic potential for domestic and export market for processed and value added dairy products. This will help in improving the profitability of dairy sector.

The College of Dairy Science and Technology in GADVASU, has been established with the objective to produce quality human resource to meet the technical and managerial manpower requirements of flourishing Dairy industry of northern India in general and Punjab in particular, to develop and transfer appropriate milk processing technologies to end users for converting the

milk into value added milk products, thus improving the quality of rural life in Punjab and promoting the concept of clean milk production among the dairy farmers of Punjab through vigorous extension education programmes. Presently, the College is offering the following programme of study:

(i) B.Tech.(Dairy Technology), 4-year programme

It is a unique job oriented course for the total development of highly professional dairy specialists through the value based education, research and training in dairy science and technology for meeting the requirements of industry, research and development. The graduates during industrial training will also get acquainted with various facets of professionally managed industries which include production management, raw material purchases, personnel management, sales and marketing. This will help the students to acquire confidence to work as highly professional human resource for dairy industry.

The programme follows the curriculum recommended by 4th Deans Committee constituted by the India Council of Agricultural Research aimed at improving the quality of education and to sustain the “White Revolution” and making India prominent on the dairy map of the world.

3. College of Fisheries

The College of Fisheries is the only college in northern states which is equipped to undertake teaching, research and training in fisheries. The college is currently concentrating on the following objectives

- Human Resource Development in fisheries.
- Basic, applied and adaptive research on emerging problems in fisheries.
- Technology transfer to fish culturists, entrepreneurs and industry.

The college has highly competent and experienced faculty. Appropriate field and laboratory facilities are also available for teaching and research. The College offers following programmes of study:

(i) B.F.Sc. 4-years programme

(ii) M.F.Sc. (Aquaculture)

(iii) Ph.D. (Aquaculture)

The curriculum of the four year degree programme (B.F.Sc.) is based on recommendations of the 4th Dean's Committee of the ICAR and is divided into eight semesters. During the first six semesters, courses (theory and practicals) covering taxonomy, anatomy, physiology, biology, biochemistry, culture techniques, nutrition, breeding, disease management for finfish and shell fishes, aquatic ecology, culture and capture fisheries resources and their management, post harvest technology, marketing and trading, economics and statistical methods and extension education will be offered. The seventh & eighth semesters would include experiential learning and hands on training.

The curriculum of M.F.Sc in aquaculture is based on ICAR recommendations. It comprises of four semesters and will cover theory and practical in aquaculture technologies, in fishery resource management, fishery biology, post harvest processing, fisheries' economics, marketing and extension. Project/ thesis will be the integral part of the programme.

The successful completion of B.F.Sc. and M.F.Sc. would entitle the graduates and the postgraduates for better job opportunities in the State Fisheries Department, Universities, Fisheries Institutes and private fisheries sector/ industry.

4. Post Graduate Institute of Veterinary Education & Research (PGIVER)

Postgraduate institute of Veterinary Education & Research (PGIVER) has been established to give impetus to specialized and need based research and imparting training to graduates of various disciplines. The basic objectives are to develop and strengthen post-graduate education, research and training programmes. The priority areas are molecular biology, biotechnology, diagnostics, bioinformatics, communication technology including computer education and business management. The other objectives of PGIVER include;

strengthening of embryo transfer technology for better productivity in relation to milk, meat and disease resistance, development of molecular techniques for production of better diagnostics, genetically defined marker vaccines and transgenic organisms for producing animal products of superior quality and identification of physiological, biochemical, molecular and cytogenetic markers for early selection of animals and poultry for increased production and quality products.

The institute will house a centralized laboratory of international standards to deal with emerging diseases of livestock and poultry. The ultimate aim will be the promotion of the farm sector by improving the genetic potential of animals using data based technologies emerging from bio-informatics to help the livestock owners in supplementing/ increasing their income

substantially by adopting the newer techniques for quality production and to encourage human resource development through training of scientists/ teachers from State Veterinary/ Agricultural Universities and other research institutes in diagnostics including imaging studies with special reference to CT scanning.

Presently the institute is offering the following programme of study:

- (i) M.V.Sc./ M.Sc. (Animal Biotechnology)
- (ii) Ph.D (Animal Biotechnology)

Medium of Instruction

Instruction in all courses and laboratories is carried out in English language. It is necessary for students to achieve a standard of competence in the language as high as possible.

(Not more than one candidate, out of the sports persons and Kashmiri migrants will be admitted in one discipline as per the joint merit list of eligible candidates. In service candidates (State Govt./Center Govt./Private sector) will be admitted against additional seats (not more than one in each discipline).

- * Seats for residents/domicile of Punjab State and Union Territory of Chandigarh with Entrance Test
- ** Nominees of Veterinary Council of India on the basis of All India Common Entrance Examination to be conducted by the VCI.
- *** Reserved for Kashmiri migrants with Entrance Test
- **** NRI seats (against additional seats).
- ***** Including seats for Centre of Advanced Studies.
- ***** Preference will given to Veterinary and Animal Husbandry Graduates.
- ***** As per guidelines of Department of Biotechnology, Govt. of India.

Seats in parenthesis denote the nominees to be made by Indian Council of Agricultural Research on the basis of entrance test to be conducted by the ICAR.

The seats left vacant in different disciplines of M.V.Sc./Ph.D. programmes where there is no waiting list may be shifted to other disciplines. The shifting of seats in different disciplines will be decided by a committee consisting of Dean Postgraduate Studies (Chairman), Dean COVS, Registrar GADVASU and Controller of Examinations. The vacant seats will be shifted only to those disciplines where no candidate has been admitted against reserved categories, from sports persons and Kashmiri migrants. The committee after assessing the availability of required facilities will shift not more than one seat to a particular discipline. The recommendation of the committee shall be put up to the Vice-Chancellor for consideration/approval.

Note:

1. The Academic Council is the supreme academic authority to frame rules and regulations, increase/decrease the admission capacity and to decide all other matters relating to admissions and academic affairs.
2. All the programmes of the University are full time programmes. A student, therefore, cannot take admission in more than one programme simultaneously.
3. The admission to all programmes of the University shall be made by the Registrar GADVASU, who reserves the right to cancel the admission obtained by mis-representation/concealment of facts or admission made due to error/ oversight, etc.

2. Prospectus and Application Forms

The prospectus and application forms can be obtained from the office of the Dean, College of Veterinary Science, Guru Angad Dev Veterinary and

Animal Sciences University, Ludhiana-141004, personally on payment of Rs. 900/- in cash at the counter or by post by sending bank draft for Rs. 950/- in favour of the Comptroller, GADVASU Ludhiana-141004. However, the NRI candidates shall have to get the application forms separately on payment of Rs.2000/- at the Counter or Rs.2200/- by post. There are separate application forms for admission to undergraduate and postgraduate programmes. For M.V.Sc./M.Sc./M.F.Sc./ Ph.D. programmes, a candidate can appear for interview as per his/her eligibility. The candidate should carefully study the admission rules and make sure that he/she fulfills the prescribed qualifications. The University shall not pay travelling or any other allowance for entrance/ repetition test/counselling for admission.

1. The University reserves the right to enhance the rates of fees and funds from time to time.
2. The entire fees collected from the students, after deduction of processing fees of Rs. 1000/- (Rupees one thousand only) shall be refunded and returned to the student/candidate withdrawing from the the programme provided the seat consequently falling vacant has been filled by another candidate by the last date.
3. The fee structure at the time of admission will remain constant throughout the programmes of the study.
4. If the electricity bills are in excess of the electricity fund realizations, the University is authorized to realise the additional charges proportionately from the hosteliars through the concerned Dean of the college.
5. The securities not claimed for three semesters succeeding the end of the semester in which the student leaves the college either by completing particular degree programme or otherwise, shall lapse. In case of interns, claims for refund of hostel security shall be entertained only after four months after the completion of internship programme.
6. All claims for refund of hostel security shall be entertained through the concerned Dean of the college.

FEE CONCESSION FOR ALL CLASSES

The Dean of the concerned College can remit half tuition fee to 10 per cent of students in each class on merit-cum-means basis in order to help such students as have financial difficulty in continuing their studies in the college. Application for the concession should be made to the concerned Dean with details of the financial position of the family. The application should be supported by certificates from responsible persons (Gazetted Officer, Head of the Institution last attended or a teacher in the College) having personal knowledge of the financial position of the student. The half fee concession is granted subject to the condition that the student will be regular in attendance and that he will show satisfactory progress in his/her studies. The concession may be withdrawn on misconduct, irregularity in attendance or failure in any of the courses in an examination.

1. The students participating in sports and co-curricular activities shall be given the following concession:

- | | |
|---|------------------------|
| (a) Participation in an officially Sponsored International Competition | i) Full fee concession |
| or

FORMULA FOR INTERCONVERSION OF OGPA/OCPA AND AGGREGATE PERCENTAGE OF MARKS UNDER THE TRADITIONAL SYSTEM OF EXAMINATION

The following formulae have been adopted by the University to determine the equivalence of each grade point average from 1 to 4/overall credit point average from 1 to 10 under the semester system in terms of the percentage of marks awarded under the traditional system of examination.

1. For conversion of Overall Credit Point Average (OCPA) into percentage of marks:

$$Y = 10Z$$

Where Y = Percentage of marks in the traditional system

Z = Overall Credit Point Average (OCPA) in 10.00 point system of Evaluation.

2. For conversion of Overall Grade Point Average (OGPA) into OCPA:

(a) For Undergraduate programme

$$Z = (50 - 10X + 5X^2) / 10$$

Where Z = OCPA in 10.00 point system of evaluation

X = OGPA (Maximum=4.00) in the letter grade system of evaluation.

(b) For Postgraduate Programmes

$$Z = (25X - 15) / 10$$

Where Z = OCPA in 10.00 point system of evaluation

X = OGPA (maximum=4.00) in the letter grade system of evaluation

CET-GADVASU

1. Test Structure

The test shall comprise of one paper of three hours' duration. This paper will be split into different parts covering different subjects (i.e. Physics, Chemistry and Biology for B.V.Sc. & A.H. and B.F.Sc. candidates whereas Physics, Chemistry and Mathematics for B.Tech. Dairy Technology candidates) A candidate who wishes to appear in the Common Entrance Test simultaneously for B.V.Sc. & A.H./B.F.Sc and B.Tech. (Dairy Technology) will be correspondingly given extra time for attempting Biology/Mathematics test. The Course contents as well as the level of the paper shall be that of the qualifying examination. The paper will contain multiple choice type questions. The proportion of the questions and weightage for various subjects for the Test shall be as under:

Subject	No. of questions	Weightage
Physics	66	33%
Chemistry	66	33%
Biology/Mathematics	68/34*	34%
Total	200/166	100%

*Each question in Mathematics part, carries double weightage.

2. Syllabus

The Syllabi of Entrance test will be same as the syllabi of 10+2 Of Punjab School Education Board/C.B.S.E. (both years)

3. Model Questions

PHYSICS

1. A particle starts with initial velocity for 10 m s^{-1} . It covers a distance of 20 cm along a straight line in two seconds. What is the acceleration of particle ?
- (A) Zero (B) 1mS^{-2} (C) 10mS^{-2} (D) 20mS^{-2}

- What is the barometric height of a liquid of density 3.4 g cm^{-3} at a place where that for mercury barometer is 70 cm ?
(A) 70 cm (B) 140 cm (C) 280 cm (D) None of these
- A ball is floating in a beaker placed in a lift. Half of its volume is outside water. The lift starts rising up with acceleration equal to $\mu/2$. What fraction of the ball will now be outside the water surface ?
(A) $\frac{1}{4}$ (B) $\frac{1}{3}$ (C) $\frac{1}{2}$ (D) $\frac{3}{4}$
- There is current of 3.2 A in a conductor. The number of electrons that cross any section normal to the direction of flow per second is:
(A) 10^{19} (B) 2×10^{19} (C) 3×10^{10} (D) 3.2×10^{19}

CHEMISTRY

- The electronic configuration 2,8,8,2 represents the element:
(A) Argon (B) Potassium (C) Calcium (D) Chlorine
- In a double bond connecting two atoms there is sharing of:
(A) 2 electrons (B) 4 electrons (C) 1 electron (D) 6 electrons
- The pH of 10 molar solution HCl in water is:
(A) 8 (B) -8 (C) between 7 and 8 (D) between 6 and 7
- The molarity of H_2SO_4 in which mole fraction of water is 0.85 is:
(A) 8.9 (B) 9.8 (C) 0.98 (D) 0.89

BIOLOGY

- One of the following terms involves all others ?
(A) Stock (B) Scion (C) Graft (D) Cambium
- Duplication of chromosomes without division of the nucleus resulting in an increased number of chromosomes within a nucleus is known as:
(A) Mitosis (B) Meiosis (C) Cistron (D) Endomitosis
- The following plant has male and female reproductive parts in the same flower:
(A) Papaya (B) Date palm (C) Cycas (D) Datura
- Spike of unisexual flowers is found in:
(A) Wheat (B) Onion (C) Mulberry (D) Fig

MATHEMATICS

- If $\Delta = a^2 - (b-c)^2$ when Δ is the area of ABC then $\tan A$ is equal to :
(A) $\frac{15}{16}$ (B) $\frac{8}{15}$ (C) $\frac{8}{17}$ (D) $\frac{1}{2}$
- If the third term of G.P. is 4, the product of first five term is :
(A) 4^3 (B) 4^5 (C) 4^4 (D) None of the above
